PREFACE

1. Purpose

This publication will ease coordination and improve understanding during multi-Service operations. A Brevity code is a code which provides no security but which has as its sole purpose the shortening of messages rather than the concealment of their content (Joint Publication 1-02).

2. Scope

This publication standardizes air-to-air, air-to-surface, surface-to-air, and surface-to-surface brevity codes. The scope is limited to those [voice] brevity codes used in multi-Service operations and does not include words unique to single-service operations. While not authoritative in nature, all services agree to these brevity code meanings. The brevity codes have been forwarded for inclusion or modification of current North Atlantic Treaty Organization (NATO) joint brevity words.

3. Applicability

This publication is intended for air and ground operations personnel at the tactical level.

4. Implementation Plan

Participating service command offices of primary responsibility (OPRs) will review this publication, validate the information, and reference and incorporate it in service and command manuals, regulations, and curricula as follows:

Army The Army will incorporate the TTP in this publication in U.S. Army training and doctrine publications as directed by the Commander, U.S. Army Training and Doctrine Command (TRADOC). Distribution is in accordance with initial distribution number (IDN) XXXXXXXX.

Marine Corps. The Marine Corps will incorporate the procedures in this publication in U.S. Marine Corps training and doctrine publications as directed by the Commanding General, U.S. Marine Corps Combat Development Command (MCCDC). Distribution is in accordance with the Marine Corps Publication Distribution System (MCPDS).

Navy. The Navy will incorporate these procedures in U.S. Navy training and doctrine publications as directed by the Commander, Navy Warfare Development Command (NWDC)[I5]. Distribution is in accordance with Military Standard Requisition and Issue Procedure Desk Guide (MILSTRIP Desk Guide) and Navy Standing Operating Procedure Publication 409 (NAV SOP Pub 409).

Air Force. The Air Force will validate and incorporate appropriate portions of this publication's multi-Service tactics, techniques, and procedures (MTTP) into Air Force doctrine documents as directed by the Commander, Air Force Doctrine Center (AFDC). Distribution is in accordance with Air Force Instruction (AFI) 33-360.

5. User Information

a. TRADOC, MCCDC, NWDC, Headquarters AFDC, and the Air Land Sea Application (ALSA) Center developed this publication with the joint participation of the approving Service commands. ALSA will review and update this publication as necessary.

b. This publication reflects current joint and Service doctrine, command and control organizations, facilities, personnel, responsibilities, and procedures. Changes in Service protocol, appropriately reflected in joint and Service publications, will likewise be incorporated in revisions to this document.
